Talk 1

Nano Vacuum - Gala Dinner Sponsor - Auditorium (Level 3)

Nano Vacuum's team has over 50 years of experience within the nanofabrication industry. We have highly qualified staff members including PhD qualified Mechanical and Electrical Engineers with expertise in Bio-Nano and Surface Science Engineering.

Our range of deposition, etching, plasma modification, clean/inert environments, packaging and lithography and surface characterisation tools offer nanofabrication resources to ensure you stay at the forefront of the highly competitive research space.

Nano Vacuum can also design, project manage and deliver complete clean rooms including UHP gas panels and orbital welded piping, clean room walls, HEPA filters, toxic gas cabinets, wet/dry scrubbers and more.

Talk 2

Ezzi Vision - Platinum Sponsor - Auditorium (Level 3)

Ezzi Vision Pty Ltd, are distributors for Edwards Vacuum Pumps, MBraun Glove-Box Systems, Hiden Analytical Mass Spectrometers, France-Etuves Vacuum Ovens, Vacuum Fittings, Thyracont Vacuum gauges, Freeze Dryers and more....

Ezzi Vision has a highly skilled technical team and a specially equipped workshop facility in Melbourne, Sydney and Perth providing both Sales and Service support.

Talk 3

Dynaflow - Gold Sponsor - Auditorium (Level 3)

Dynaflow is a family owned Australian company established in 1981 that has grown to achieve market leader status in the field of Laboratory Fume Risk Control.

Dynaflow has had long standing third party Certifications and Accreditations which are valuable in this field:

- SAI Global Standards Mark Licence for Product Certification to AS2243.8 Safety In laboratories – Fume Cupboards
- SAL Global Accreditation for ISO9000 Quality systems
- NATA Accreditation for ISO17025 for the testing of Fume cupboards

Dynaflow can provide a wide range of products and services to meet client obligations associated with Laboratory Fume Risk Control.

Conference

Rm Level 4

Talk 1

Coltronics - Gold Sponsor – Conference Room (Level 4)

Supplying Manufacturing, Education and Research Industries since 1970 Coltronics Systems is a specialist in all aspects of delivering and maintaining capital equipment and consumables for the manufacturing, electronics and semiconductor industries. We aim to be able to offer local expertise and support on all our products with a particular focus on supplying equipment solutions to manufacturing and research institutes, all across Australia.

Coltronics has delivered, installed and continues to service a large range of manufacturing and semi-conductor processing equipment at many manufacturers, universities and research institutesincluding the major governmental departments for research, defence and most Australian universities.

Talk 2

Accretech - Gold Sponsor – Conference Room (Level 4)

Over 70 years experience and knowledge in the industry, Tokyo Seimitsu had built the brand ACCRETECH as one of the top equipment manufacturer in the world specializing in both Metrology Equipment and Semiconductor Equipment.

Accretech are market leaders in Coordinate Measuring Machine. In addition, we also have Surface Texturing and Contour Measuring instruments and Cylindrical form measuring instruments.

In Semiconductors, we offer high precision dicing system and blades. We also offer solution such as Chemical Mechanical Planarization (CMP), Laser Sawing System, Wafer Edge Grinding System and Wafer Polish Grinding System.

Talk 3

EVG - Gold Sponsor – Conference Room (Level 4)

EV Group (EVG) is a leading supplier of high-volume production equipment and process solutions for the manufacture of semiconductors, MEMS, compound semiconductors, power devices and nanotechnology devices.

A recognized market and technology leader in wafer-level bonding and lithography for advanced packaging and nanotechnology, EVG's key products include wafer bonding, thin-wafer processing and lithography/nanoimprint lithography (NIL) equipment, photoresist coaters, as well as cleaning and inspection/metrology systems.
